## SPECIFICATIONS

MAX B1-18	
Component	Pre-loaded enclosure
Size	1x8" (200mm)
Nominal Impedance	1 / 2+2 / 4 Ohm
Power RMS	500W
Power MAX	1000W
Volume	17 L
Weight	11.3 KG

MAX B1-18SW	
Component	Subwoofer
Size	8" (200mm)
Nominal Impedance	2+2 Ohm
Power RMS	500W
Power MAX	1000W
Freq. response	25-200Hz
Voice Coil	Dual 2.5" PCW
Voice coil former	Aluminum
Cone	Non-Pressed Paper
Dustcap	3D IMPP
Basket	HD steel
Magnet	H0 Ferrite 2x56oz
Suspension	High roll foam w. stitch
Tinsel	Dual silver coated leads

# MAX B1-18

## ALL YOU NEED AND MORE

Are you ready to unleash the full power of your car's audio system? This is the GAS MAX B1-18, a custom enclosure fitted with a custom-made subwoofer based on the awesome MAX S1-8D1 subwoofer. Designed for the hardcore bass heads out there, this is an enclosure that perfectly balances awesome power, weight, and musicality.

## PRECISION CAR AUDIO

The enclosure's loaded with a custom made 8" subwoofer that was inspired by the MAX S1 subwoofer series. This woofer will show everyone that your audio dedication is real. With a rigid and durable cone made by non-pressed paper with Mica minerals, dual stitching and impressive high roll foam suspension, you'll experience grand cone movement and musicality like never before. The subwoofer has dual stacked H0 ferrite magnets, a bumped packplate, a Nomex spider and an HD steel basket to make sure that your sound system will be the last thing standing.

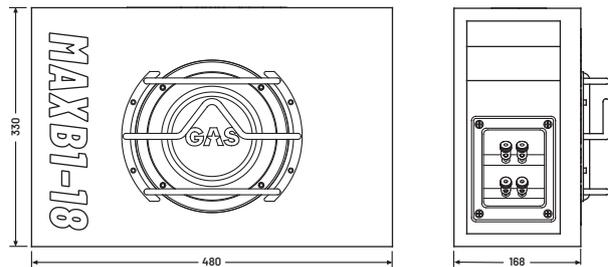

## MAXIMUM BASS

You know as well as we do that it takes more than a good subwoofer to get an awesome sound system, you need a great enclosure too. The MAX B1 enclosure has an optimized high output airflow slot port design that makes sure you get a more immersive listening experience with its enhanced extension and response. We have also included custom feet with the MAX B1-18, which lets you point the subwoofer downwards. This feature is perfect for those that want to squeeze every possible dB out of the enclosure!

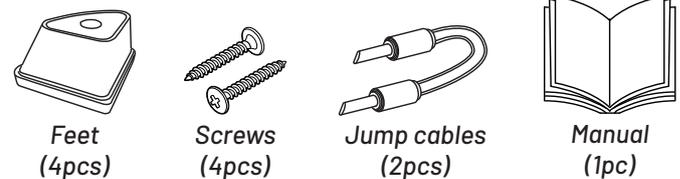

## NO COMPROMISE

There's no shortcut to an awesome sound system. The GAS MAX B1-18 is made to push your car audio system to its limit. Its strong and durable enclosure will resist all the heavy vibrations and resonances it might face, and the stylish pre-mounted A-star grille will make sure the subwoofer is secure. The black edition dual push terminals and included jump cables offer you a smooth and high-performing installation with easy impedance optimization. Show everyone that you've reached the next level, the MAX level, of car audio.
