MAX K2-64

THE SUM OF AWESOME

With a high-quality ferrite motor, copper wire voice coil, aluminum former, and copper shorting ring, the GAS MAX K2-64 has a strong and stable foundation for the speaker. It ensures that the speaker can deliver crisp, clear, and powerful audio that exceeds your expectations. But we didn't stop there. The MAX series is all about quality, which is why we used an aluminum basket and metal tweeter housing. This speaker is built to handle anything you throw at it, rough and tough conditions are not an issue, thanks to the DVS ventilated basket and back plate with the beautiful GAS A Star pattern.

NEXT LEVEL WEATHER RESISTANCE

Sweden, where the GAS speakers are designed, is known for its harsh climate. It's cold, warm, wet, windy – we got it all, and on any given day you might even experience them all at the same time. Just for this reason the MAX K2-64 features an A3D Lightweight pressed paper cone with WRC (Water Repellent Coating). This cone is strong, with high sensitivity and of course totally weather resistant. This means that you can enjoy your music, no matter the climate or weather.

WHEN "GOOD" ISN'T GOOD ENOUGH

The GAS MAX K2-64 kit also features a low Fs design midwoofer, which reproduces not only the midrange spectrum but also the vital midwoofer experience with great authority and dynamics. The NBR suspension & Polycotton/Nomex spider provides impressive detailed and responsive sound reproduction, and the silk dome tweeter delivers clear and brilliant highs without getting harsh. In other words, you'll be able to hear every detail, making your favorite music sound bolder and more lifelike.

EASY TO INSTALL

To give you better and easier mounting options, we've also included separate crossovers. You can even choose between passive or active use of the tweeter and midwoofer. The speaker comes with the beloved S2 Crosshead terminal, which allows you to choose either the flat pin connector or connect with a crosshead screw, giving you the best of both worlds.

HEAR THE DIFFERENCE

Finally, the speakers come included with hexagon patterned grilles with an aluminum badge, which protects the speaker and keeps your build stylish. The aluminum badge adds a touch of elegance to your car audio system. Upgrade your car audio with the GAS MAX K2-64 component speaker and experience the sound difference (and quality) for yourself.

SPECIFICATIONS

MAX K2-64	
Component	Component kit
Woofer size	6.5" (165mm)
Tweeter size	1" (25mm)
Nominal impedance	4 Ohm
Power RMS	130W
Power MAX	260W
Freq. response	55-23 000Hz
Sensitivity	93dB

MAX T2-254 TWEETER	
Tweeter size	1" (25mm)
Nominal impedance	4 Ohm
Power RMS	65W
Power MAX	130W
Freq. response	2000-23000Hz
Sensitivity	93dB
Tweeter dome	Silk
Tweeter magnet	Neodymium
Fs	880Hz

MAX TX02-14 CROSSOVER	
Crossover type	High pass
Slope	12db
Cut off	4500Hz
Tweeter level	High / Low
Phase selector	Yes

MAX MW2-64 WOOFER	
Woofer size	6.5" (165mm)
Nominal impedance	4 Ohm
Power RMS	130W
Power MAX	260W
Freq. response	55-7000Hz
Sensitivity	93dB
Woofer cone	A3D WRC Paper
Woofer basket	Aluminum
Woofer suspension	NBR Rubber
Woofer magnet	H0 Ferrite
Woofer cone	Polycotton /Nomex
Voice coil	1" (25mm) ASV
Voice coil wire	Copper
Shorting ring	Yes/Copper
Terminal	S2 screw/spade
Fs	59.1Hz
Vas	15.5L
Qts	0.46
Qes	0.52
Qms	3.48
Re	2.8 Ohm
Mms	10.6g
Bl	4.7Tm

MAX WX02-14 CROSSOVER	
Crossover type	Low pass
Slope	6db
Cut off	4500Hz
